

Marquee Seating

Technical Specifications

Construction & Materials

- Frame:** 16 gauge steel rectangle tube frame with non-marring glides included with each leg.
- Seat:** Seats are made of manufactured plywood. 3" thick high grade polyurethane foam. 3/8" bolts fasten seat to back.
Textiles are sewn with double stitch seams.
- Back:** Backs are formed with bent plywood. 1 3/4" thick high grade polyurethane foam.
- Finish:** Multi-step catalyzed varnish hand-finishing process is used on wood arm caps.

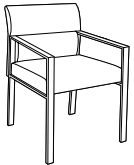

Features

- Marquee combines a mix of materials offering unlimited flexibility
