

# TRI-ONE

TABLE SOLUTIONS

Indiana  
FURNITURE

## BUILT-IN MULTIPLICITY.

Tri-One brings flexibility through a full offering of training tables, meeting tables, and modular conference tables to outfit a variety of signature, collaborative, and multi-use spaces.

With a range of shapes, sizes, edge profiles, surface materials, and options for integrated power/data capabilities, Tri-One's versatility is virtually limitless.

Tri-One tables are responsible too. They consider the environment by using renewable and recyclable materials, allowing them to achieve indoor air quality and BIFMA level® certifications, and comply with the mechanical standards that focus on safety and durability to meet BIFMA Compliant® certification.

## Mindful Meetings. Casual Collaborations.

Think beyond the ordinary with modular conference tables in super flexible sizes. Wood or laminate tops can be 24" or 30" deep, with length specified in one-inch increments from 36" to 84". Innovative pentagon and trapezoid shapes enable more configurations with fewer pieces. Choose square or knife edges. Optional modesty panels match or contrast top material. Power ports available as standard or daisy-chain plugs.

Create informal community and personal spaces with nimble groupings of café style tables in a trio of shapes and three height options.

## Class Action.

Stimulate a learning environment with lively materials. Choose durable, high pressure (HPL) or thermally-fused (TFL) laminate training table tops in textured, patterned or wood-grains. Two edge styles and two post leg designs further define the look.

Training tables are pre-drilled to gang easily from the ends or fronts, without tools, enabling flexible arrangements. Optional, proprietary flip mechanisms activated from any table position allow for quick, effortless nesting and storage.

## Private Pursuits.

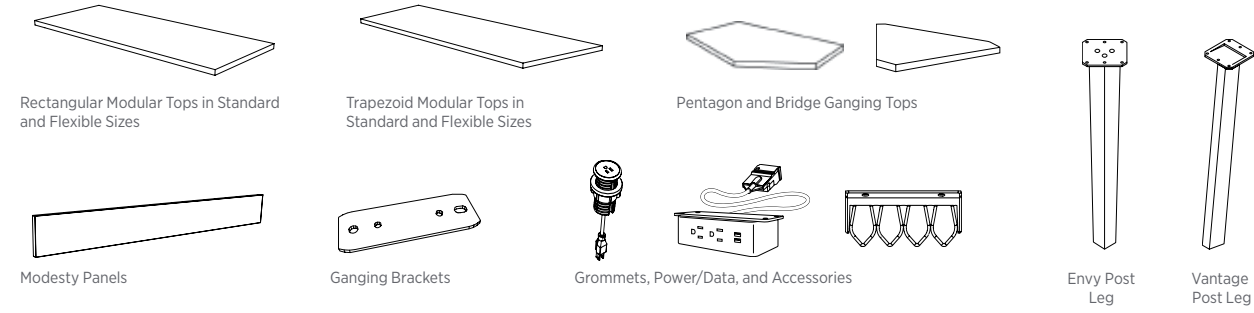

Many Tri-One meeting tables are shaped on all four sides, so they can also be utilized as clean-lined desks for private office settings. A trough in the Envy Y-leg provides clean power routing.

Dress up a Tri-One work or meeting table with the new Strut leg. Designed with precision minimalist lines and angles to establish modern sensibility in any work area.

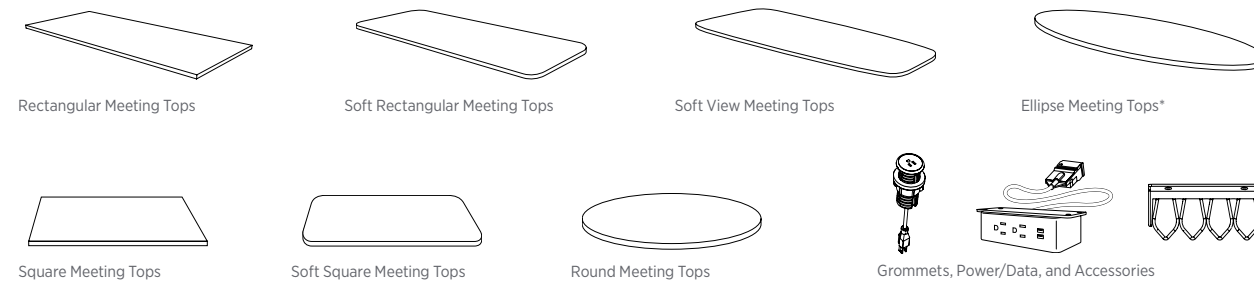

# Statement of Line

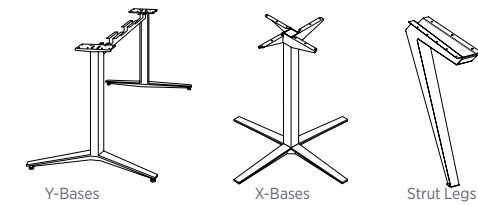

## Modular Tops & Legs

## Meeting Tops & Legs

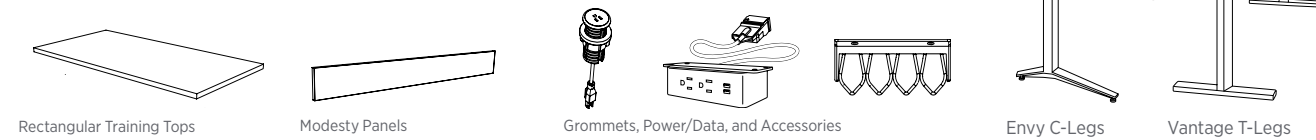

### Bases and Legs

\* The Ellipse Meeting Tops will use the Envy Post or Vantage Post Legs

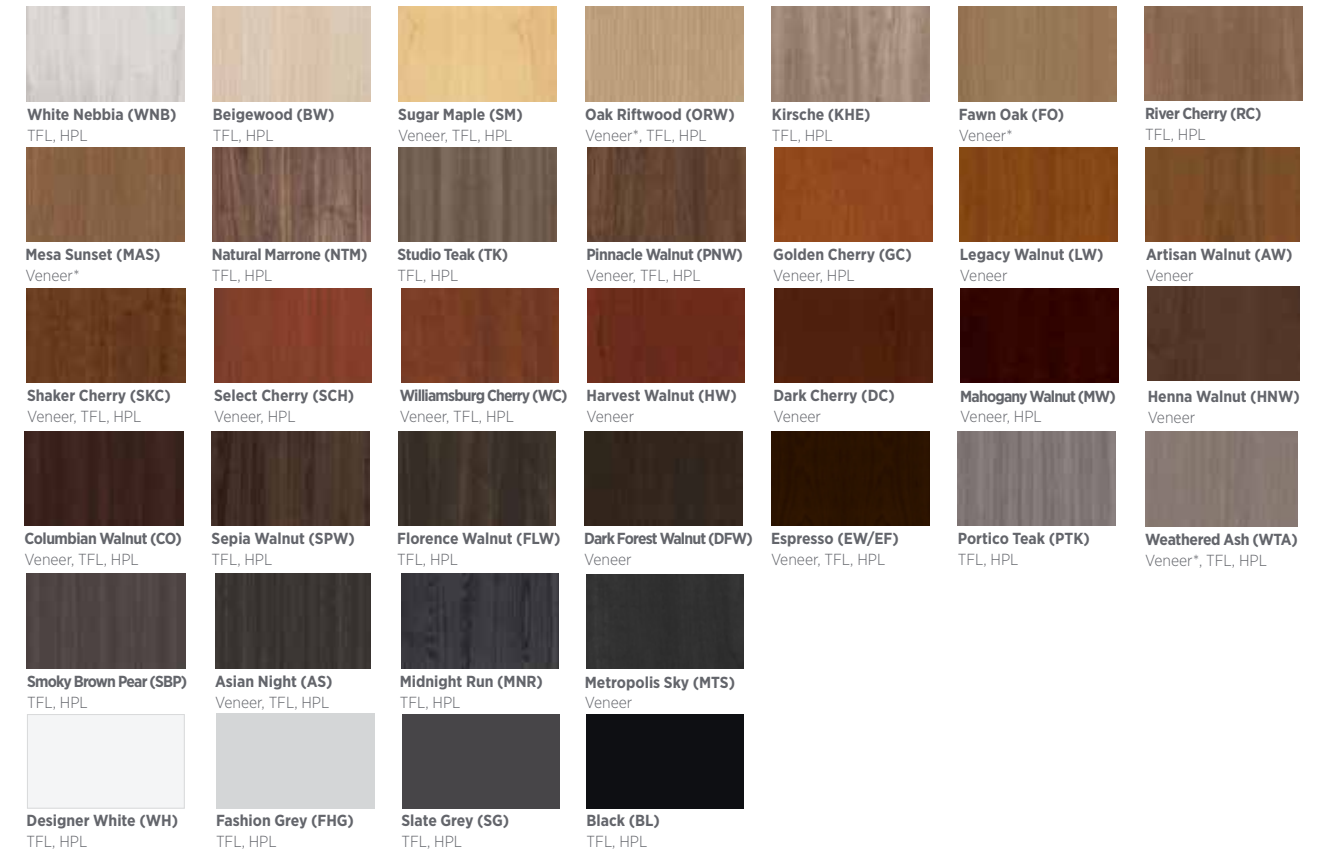

## Training Tops & Legs

# Surface Materials

## Veneer and Laminate Options

Our veneer casegoods feature our UV top finish, UVAdvantage. The result is a low-emitting finish that provides exceptional depth, clarity, durability and chemical resistance throughout the life of the product.

\* Veneer is Low Sheen

## Edge Profiles:

## Wire Management & Power Options:

Stylish, Envy C-legs route wires to the legs where a discreet removable interior panel keeps things tidy while providing access. Specify power ports in or under the work surface. Ports are available in white, aluminum, or black.

Refer to the Tri-One price list to see all of the wire management and power options available.
